

B-PRB08052 Super Sonicwake 48" 8S Self-Righting Brushless Deep-V RTR

The Super Sonicwake 48" RTR doesn't just push the envelope - it tears through, with the largest size and best performance of any Pro Boat model to date. It's also the biggest self-righting boat ever in RC. Run at 50+ mph top speeds with no worries!

It is the latest member of a deep-V family that began with the powerful Sonicwake 36". That boat's incredible performance made it the most popular model in the Pro Boat lineup. So if bigger means better, then get ready. The Super Sonicwake 48" is about to blow all others out of the water with the best features, the best performance, AND the largest size.

The Super Sonicwake 48" has a factory-installed Spektrum 8S brushless power system capable of producing 50+ mph speeds. Independent water-cooling systems for the motor and ESC keep your hard-working electronics at safe operating temperatures. Depending on which recommended LiPo battery option you use, you can maximize speed or extend run time. The innovative Pro Boat SSL (Strap, Slide, Lock) battery installation system lets you exchange packs in just a matter of seconds.

FEATURES ☰

- Worry-free self-righting design
- 50+ mph capable 8S brushless power system
- SSL (Strap, Slide, Lock) battery installation
- Huge large-scale size
- Thick, durable ABS hull
- Dual independent water cooling systems
- High-quality aluminium hardware
- Underwater LED lights
- Breakaway rudder protection
- Quick 1/4 turn canopy latches
- Waterproof receiver box
- Stuffing tube grease catch
- Free-floating prop strut bushing

IN THE BOX ✓

- (1) Pro Boat Super Sonicwake 48" 8S Self-Righting BL RTR
- 1) Spektrum 4685 950Kv 4-Pole Brushless Marine Motor
- (1) Spektrum Firma 160A Smart Brushless Marine ESC(1) Spektrum S905 Standard 40KG 15T Waterproof Metal Gear Servo
- (1) Spektrum DX3 Smart DSMR 3-Channel 2.4GHz Radio Transmitter
- (1) Spektrum SR315 DSMR 3-Channel Receiver (SPMSR315, installed)
- (4) AA Transmitter Batteries
- (1) Antenna Tube
- (1) Marine Grease
- (1) Instruction Manual

NEEDED TO COMPLETE +

- (2) 4S 5000 mAh 100C LiPo Battery
- (1) Compatible Charger
