

World-Renowned Aerobatics

A-EFL05050 / A-EFL05075 Extra 330 SC 3D 1.3m BNF Basic / PNP

For three decades, full-scale Extra aircraft have delivered incredible aerobatic performance with virtually unlimited potential. Variants have been flown to first place finishes in a long list of competitions, including at the recent world championships. That's why Jim Bourke – the creator of RCGroups.com and owner of Knife Edge Software that originally developed the RealFlight RC simulator – chooses to fly an Extra 330SC in airshows and competitions around the world. The E-flite Extra 330SC 3D 1.3m is a replica of Jim's airplane that features his unique and iconic trim scheme. It's an updated and upgraded version of the Extra 300 3D 1.3m that delivers unbelievable sport flying, aerobatic, and 3D capabilities for intermediate to experienced pilots. It features digital, metal-gearred servos, plus a 3S and 4S compatible power system now including an 85A Spektrum Avian Smart Lite ESC. The BNF Basic version is also equipped with an AR631 receiver to deliver real-time telemetry data along with AS3X and SAFE Select technologies that make it even easier to fly!

FEATURES

- A scale model of the Extra 330SC Jim Bourke flies in airshows and competitions across the world
- Stronger motor mount and specially tuned motor compatible with 3S or 4S batteries without the need for modifications or upgrades
- Larger hatch and opening with plastic edges to make it easier to install/remove batteries
- 85-amp Spektrum Avian Smart Lite ESC provides real-time battery voltage, current, RPM, and other data via compatible receivers and transmitters
- Popular 3S and 4S 2200–3200mAh batteries deliver excellent performance and flight times
- Four factory-installed digital and metal-gearred servos with ball-link-equipped linkages
- Oversized control surfaces for maximum 3D aerobatic capability and performance
- Lightweight yet durable, composite-reinforced construction with EPO material
- Factory-finished with Jim's vivid paint scheme and bold graphics
- More durable aluminium landing gear with wheel pants
- Two-piece plug-in wings with carbon fibre wing tube

IN THE BOX

- (1) E-flite Extra 330SC 3D 1.3m with:
- (4) Digital, Metal-Gearred Servos
- (1) Spektrum BL Outrunner Motor
- (1) Spektrum Avian 85-Amp Smart Lite Brushless ESC
- (1) Spektrum AR631 Receiver with AS3X & SAFE Select (BNF Basic version only)
- (1) Product Manual

NEEDED TO COMPLETE

- **BNF Basic** - Full-range 4-5+ channel Spektrum DSMX transmitter
- **PNP** - Full-range 4+ channel transmitter and receiver
- 3S 11.1V or 4S 14.8V 2200-3200mAh LiPo with EC3 or IC3 Connector
- Compatible LiPo charger
