

BLAZE NEW TRAILS FOR LESS

C-AXI-1375T1/T2 1/10 SCX10 III Base Camp 4WD Rock Crawler RTR White / Grey

Now lower priced and even better looking, the SCX10 III Base Camp delivers unbeatable performance for climbing rocks and cruising trails. With Spektrum electronics and a proven 1/10 scale platform, it's the ideal first or next rig for any crawling fan.

Built on the proven Axial SCX10 III platform, the Base Camp is equally at home climbing rocks and ledges or following a trail back to camp. Its optimized suspension, tunable oil-filled shocks, and tough-as-nails drivetrain all contribute to unstoppable crawling performance. The Base Camp now also features loads of new accessories for improved looks. A snorkel, half cage, functional storage case, rock sliders, side mirrors, and door handles all boost the scale realism for more excitement on the trails.

Despite its affordable price, every component of the Base Camp RTR package is reliable, low-maintenance, and high quality – from the installed Axial Slickrock 35T brushed motor and Spektrum 40A waterproof brushed ESC to the feature-packed Spektrum SLT3 transmitter and 5-channel SR515 DSMR Sport Receiver located in a sealed receiver box.
