

VERSATILE STORAGE FOR ANYONE

T-RCO-TL018 RC Hauler Bag

T-RCO-TL019 Charger/Tool Bag

T-RCO-TL020 Hauler & Charger Bag Combo

Introducing a simple and versatile storage solution for an array of applications. With a footprint of 560x360mm and a depth of 250mm, the RC Overhaul Hauler Bag is ideal whether you are looking for an upgrade to the factory cardboard box your vehicle came in to keep your kit together; through to a simple storage bag for tyres or race kit or even a place to keep your dirt covered car at the end of a long days bashing or racing! The applications are almost endless and thanks to it's design the bag is versatile for whatever storage need you may have.

The 250x150x100mm Charger/Tool Bag from RC Overhaul offers a simple and versatile way to store an array of RC kit. It's size makes it ideal to keep all the accessories that come in the box with your RTR vehicle (basic tools and chargers) so they don't get misplaced; or for those with a more extensive range of tools it can be a dedicated tool bag and with the included divider you can divide the space to best suit your needs. The bag can accommodate multiple transmitters for safe storage or even a place to keep your SCX24!

RC Overhaul presents a duo of simple and versatile storage solution for an array of application at an economical price that make these bags a must have for all. Whether you are a seasoned racer looking to keep your kit organized for race day or in need of a bag to keep all the bits that came with your newest RTR together, RC Overhaults bag duo have the answer. For the ultimate in organization, the Tool/Charger bag conveniently fits in the Hauler bag on it's end meaning you can fit 2 or 3 (dependent on orientation) Tool/Charger bags across the width of the Hauler Bag for better organization.

The bags come flat packed and can be put together in a matter of minutes! They are manufactured from a tough and durable canvas material which will stand the test of time. The Hauler bag comes with 2 dividers whilst the Charger/Tool Bag comes with 1, these can be positioned along the length of the bag at any point to divide the space as desired. For next level organization, the Tool/Charger Bag is designed to fit neatly inside the Hauler Bag when placed upright. Depending on the orientation, you can fit two or three Tool/Charger Bags across the width of the Hauler Bag for optimal storage efficiency.
