

A FASTER 1/8 SCALE BUGGY — FOR LESS

C-ARA4306V4T1/T2 1/8 TYPHON 223S BLX 4X4 Buggy RTR with DSC Green/Yellow

Go big and go brushless with the 1/8 scale ARRMA TYPHON 223S BLX race buggy! Ready for 2S or 3S power out of the box, it lets you increase top speeds from 35 to 50+ as your skills grow - without having to buy another vehicle or add expensive upgrades.

ARRMA developed the 223S series especially for brushless bashing newcomers who want to grow from 2S to 3S power without adding expensive upgrades or buying a whole new vehicle. On a 2S LiPo the TYPHON 223S BLX reaches 35+ mph top speeds, matching or beating the best that other manufacturers' 2S bashers can do. Whenever you're ready, plug in a 3S battery. Now you can unleash the buggy's full 50+ mph potential!

You control how fast your TYPHON 223S BLX can go by your choice of battery and where you set the throttle limiter on its included Spektrum SLT3 transmitter. With throttle limiting, the SLT3 automatically limits top speed to a level you prefer until you're ready for it all. Set the throttle limiting switch to 50% or 75% and you'll never have to worry about moving faster than you can safely manage.

All-metal diff outdrives and gearbox internals, plus durable composite slider driveshafts, contribute to a reliable, heavy-duty 4X4 drivetrain that holds up to extreme brushless bashing.

FEATURES

- 2S And 3S Ready, For Brushless Beginner To Pro-Level Speeds
- Spektrum DSC (Dynamic Stability Control) And Throttle Limiting Keep You In Control
- Super-Tough 4X4 Drivetrain With Center Differential
- Install a 2S LiPo battery for 35+ mph maximum speed
- Use a 3S battery for 50+ mph top speed
- Stronger, ventilated composite chassis
- More durable centre driveshaft
- Easy to use centre diff module
- All-metal centre gear differential
- Easy-access gear mesh
- Stealth monochrome electronics
- All-terrain suspension with stronger arms
- Adjustable oil-filled shocks
- Higher side guards for protection from dirt
- Driveshaft stone guard
- Spektrum 3100Kv brushless motor and 35mm motor cooling fan
- Clipless quick-release body system
- High downforce buggy style wing
- 4 "AA" transmitter batteries
- Includes 2.0mm and 2.5mm hex drivers

IN THE BOX

- (1) TYPHON 223S BLX 4X4 1/8 Scale Race Buggy RTR
- (1) Spektrum SLT 80A 2-In-1 Waterproof* ESC & Receiver 2S/3S With DSC
- (1) Spektrum 3100Kv Brushless Motor
- (1) Spektrum SLT3 2.4GHz Transmitter
- (1) Spektrum S662 Metal-Geared 25T Waterproof Digital Servo
- (4) AA Batteries
- (1) Instruction Manual
- 2.0mm And 2.5mm Hex Drivers

NEEDED TO COMPLETE

- 1 x 2S or 1 x 3S Hardcase LiPo with IC5/EC5 Connector
- Compatible Charger
- Charging Bag
