PLUG-N-PLAY

A UNIQUE CLASSIC CUB FLYING EXPERIENCE

A-HAN5005/HAN5175/HAN5175CEP J-3 Cub 10cc ARF/PNP/PLUG-N-PLAY with Rx&Batt, 82.5"

The Hangar 9 J-3 Cub 10cc is an 82.5" (2.1m) span giant-scale replica of the aviation icon. It's designed to deliver the original's classic look and flying experience with modern-day features and conveniences, including a 2-piece wing and slots to hold the wing tube in the fuselage during storage and transport. The ARF version arrives mostly factory assembled and allows you to install a .62 4-stroke glow, 11cc 4-stroke petrol, and other similar class engines or an equivalent electric power system and the electronics you prefer. The PNP version doesn't require any glue for assembly. It is equipped with four factory-installed digital and metal-gear Spektrum A6380 servos, a 4S to 6S compatible Avian 4260-480Kv outrunner motor, and a 70-amp Smart Lite ESC that can provide a variety of power system-related telemetry data with Smart and non-Smart batteries via compatible receivers and Spektrum AirWare equipped transmitters.

FEATURES

- Giant-scale 82.5" (2.1m) replica with strong and stiff - yet lightweight and long-lasting - built-up wood construction finished with genuine UltraCote film covering
- Two-piece wing with slots in the fuselage to hold the wing tube for more convenient storage and transport
- Transparent windows, seats, a pilot bust, wing struts, tail bracing wires and other scale details
- Scale-like landing gear with standard wheels and Cub hubcaps plus optional wheels pants (sold separately)
- Optional "starburst" decals and shorter span (68.5") "clipped" wings available separately for improved aerobatic performance

IN THE BOX

- (1) Hangar 9 J-3 Cub 10cc
- (1) Product Manual
- HAN5175 + HAN5175CEP**
- (4) Spektrum A6380 Digital, MG Servos
- (1) Spektrum Avian 4260-480Kv Brushless Outrunner Motor
- (1) Spektrum Avian 70-Amp Brushless Smart Lite ESC
- HAN5175CEP Only**
- (1) Spektrum AR637T+ Receiver
- (1) Spektrum 4S 5000mAh LiPo Battery

NEEDED TO COMPLETE

- HAN5005**
- (1) 4+ channel transmitter and receiver
- (4) Standard sized servos with 80+ oz-in torque (plus one additional standard sized servo for throttle when using a petrol or glow engine)
- (1) .62 4-stroke glow, 11cc 4-stroke petrol, and other similar class engines or an equivalent 4S to 6S compatible electric power system
- HAN5175 + HAN5175CEP**
- (1) 4+ channel transmitter and receiver
- (1) 4S 14.8V to 6S 22.2V 3200-5000mAh LiPo with EC5 or IC5 Connector
- (1) Compatible LiPo charger
- HAN5175CEP Only**
- (1) Full-range 4+ channel transmitter
- (1) Compatible LiPo charger
