

C-AXI00006V2T4/T5/T6 1/24 SCX24 Ford Bronco 4X4 RTR White / Green / Red

With its proven performance on indoor and outdoor trails, the Axial 1/24 scale SCX24 is the ideal platform for bringing the Ford Bronco to Ford fans and RC crawling enthusiasts of all ages. Everyone will admire the scale realism of its officially licensed, highly detailed hard body -complete with moulded door handles, mirrors, roof rails, and a mounted spare tyre.

“Complete” also accurately describes the Axial SCX24 Ford Bronco ready-to-run package. Inside the box you’ll find the fully assembled rig plus everything required for operation, all at one affordable price. For even greater value, Axial now includes top-of-the-line Spektrum electronics and plush, oil-filled shocks that provide stable handling over the roughest terrain.

The Axial SCX24 Ford Bronco RTR comes with everything you need a Spektrum SLT2 2.4GHz radio, Spektrum 350mAh 2S 30C 7.4V LiPo battery, handy Spektrum USB LiPo charger, and four AA batteries for the transmitter. Just pick your favourite of the three new body colour options and choose your trail. The SCX24 Bronco is a must for Ford enthusiasts, and an essential addition to every Axial fan’s fleet!
